

InSAR & P-SBAS Applications in Earth Sciences.

9 April 2025

15:30-17:00 (CEST)

Using EarthConsole[®] platform for the assisted processing of Large Earth Observation Dataset Webinar with Live Demonstration

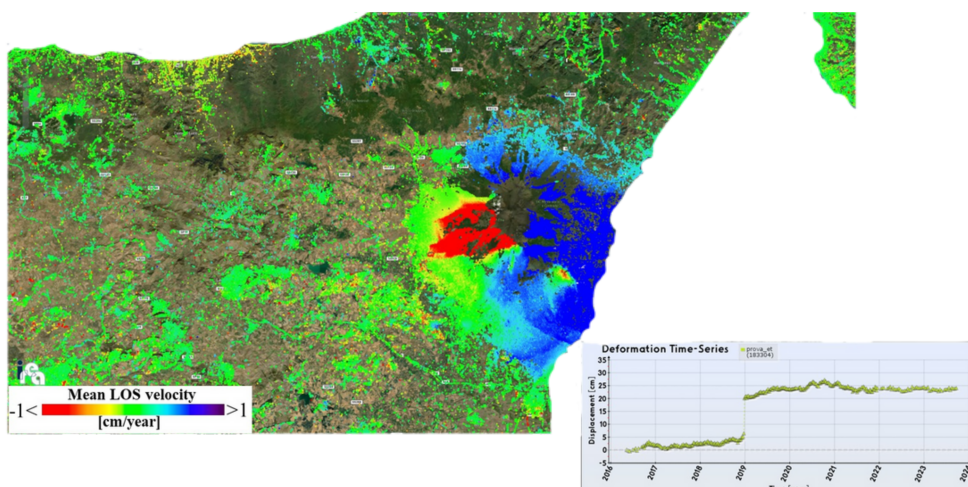

- ▶ Learn the fundamentals of Interferometric Synthetic Aperture Radar (InSAR) and how to detect surface movements driven by natural and human-induced Processes.
- ▶ Discover the Earth Console[®] platform by Progressive Systems and the P-SBAS on-demand Service for Sentinel-1 and ENVISAT to generate ground motion time series and velocity maps.
- ▶ Get a one-week free trial, including up to 30 processing hours, to test the P-SBAS for Sentinel-1 on-demand service on EarthConsole[®].

Speakers:

Dr. Claudio De Luca
(IREA-CNR)

Massimo Orlandi
(Progressive Systems)

Maddalena Iesué
(Progressive Systems)
